

COLLEGE CREDIT PROGRAM AREAS

THE ASSOCIATE IN ARTS DEGREE

For Transfer To a University

The College offers a two-year program leading to the Associate in Arts degree. Usually referred to as the Transfer or University Parallel Program, it is designed for students who plan to complete their first two years of college work at Florida Junior College at Jacksonville and then transfer as juniors to senior institutions of their choice. Earned credits may be transferred to these senior institutions and applied toward a Bachelor's degree.

In planning a program at Florida Junior College at Jacksonville, the student should be certain to meet the General Education requirements for the Associate in Arts degree and complete a program of at least 62 semester hours exclusive of occupational courses and exclusive of physical education activity courses in excess of two one-semester hour courses. Within this 62 semester hours the student should be certain to fulfill the pre-major course requirements for the major which the student intends to take at the university the student plans to attend.

Any student transferring to a senior college from Florida Junior College at Jacksonville is advised to write the registrar of that college for information concerning special course requirements that should be met while attending Florida Junior College at Jacksonville. These requirements vary from university to university; thus, specific programs of study for a given major at a given university should be worked out individually by the student and an advisor or counselor soon after the student enrolls at Florida Junior College at Jacksonville. To maximize transferability, the student is advised to choose a major as early as possible while at Florida Junior College at Jacksonville.

The counselors in the office of Student Development on each campus have counseling manuals provided by each state university in Florida, which list courses to be taken at the junior college for each undergraduate major the university offers. Using these manuals, as well as catalogs from the universities, the counselor or advisor will work out a program of study at Florida Junior College at Jacksonville for the student. The student has the responsibility for making contact with a counselor or advisor in the office of Student Development to work out the student's program of study at FJC.

ASSOCIATE IN ARTS DEGREE

Graduation Requirements

In order to be awarded the Associate in Arts degree, the student must have met the following requirements:

1. Earned a cumulative grade point average of 2.00 (C) on all college credit courses, including transfer credits, exclusive of courses designated as occupational, and exclusive of physical education activity courses in excess of two one-semester hour courses.
2. Earned a grade point average of 2.00 (C) on all courses taken at Florida Junior College at Jacksonville exclusive of courses designated as occupational, and exclusive of physical education activity courses in excess of two one-semester hour courses.
3. Completed in residence at Florida Junior College at Jacksonville at least 15 semester hours of the total of 62 semester hours required for the degree.
4. Completed 62 semester hours of college credit work as follows:
 - a. Complete the general education requirements (36 semester hours) set forth on Pages 44 through 46 of this catalog.
 - b. Complete the elective requirements (26 semester hours) set forth on page 46 of this catalog.

Before a student may graduate, the student must have fulfilled all financial obligations to the College.

NOTE: Students are cautioned to pay particular attention to conditions on page 46 of this catalog concerning acceptable credits to meet degree requirements.

ASSOCIATE IN ARTS

Graduation Options

A student has the following options in meeting graduation requirements:

1. Option 1 — The requirements stated in the catalog which is effective for the term in which the student graduates.*
2. Option 2 — The requirements stated in the catalog which was effective for the term in which the student initially entered Florida Junior College at Jacksonville as a college credit student.
3. Option 3 — A student has the option of meeting the graduation requirements stated in any catalog which was in effect between the term in which the student initially entered Florida Junior College at Jacksonville as a college credit student and the term in which the student graduates.*

*NOTE: See page 36 for determination of the term in which a student graduates.

ASSOCIATE IN ARTS DEGREE

General Education Requirements

1. The General Education program for the Associate in Arts degree shall consist of a minimum of 36 semester hours of work. This 36 semester hours is part of the minimum of 62 semester hours required for the Associate in Arts degree. General Education, as conceived at Florida Junior College at Jacksonville, is concerned with developing responsible citizenship in a democratic situation. It is formulated to develop skills, attitudes, and understandings in broad areas; the humanities, communications, the social sciences, mathematics, and the natural sciences.
2. The following subject areas shall be included in the program in the manner specified:

I. SOCIAL SCIENCE . . . 6 semester hours

- A. Three semester hours from any of the following: (Meets State requirement for Study of U.S. Constitution)

AMH 2010 — UNITED STATES HISTORY I
 EUH 1001 — WESTERN CIVILIZATION
 POS 2041 — AMERICAN FEDERAL GOVERNMENT
 SSI 1120 — ORIGINS OF AMERICAN SOCIETY II

- B. Three semester hours from any of the following:

AMH 2020 — UNITED STATES HISTORY II
 AMH 2420 — HISTORY OF FLORIDA
 AMH 2571 — AFRO-AMERICAN HISTORY AND CULTURE I
 AMH 2572 — AFRO-AMERICAN HISTORY AND CULTURE II
 ANT 2410 — CULTURAL ANTHROPOLOGY
 ANT 2511 — PHYSICAL ANTHROPOLOGY
 ASH 2300 — HISTORY OF THE FAR EAST
 CPO 2002 — INTRODUCTION TO COMPARATIVE GOVERNMENT
 DEP 2004 — HUMAN GROWTH & DEVELOPMENT
 DEP 2102 — CHILD PSYCHOLOGY
 DEP 2302 — ADOLESCENT PSYCHOLOGY
 ECO 2000 — FOUNDATIONS OF THE AMERICAN ECONOMY
 ECO 2013 — PRINCIPLES OF ECONOMICS I
 ECO 2023 — PRINCIPLES OF ECONOMICS II
 EDP 2002 — EDUCATIONAL PSYCHOLOGY
 EUH 1000 — WESTERN CIVILIZATION
 GEA 1000 — WORLD GEOGRAPHY
 GEO 2370 — CONSERVATION OF RESOURCES
 HES 1000 — PERSONAL AND COMMUNITY HEALTH
 HIS 1907 — HONORS SURVEY OF HISTORY
 INR 2002 — INTERNATIONAL RELATIONS
 LAH 2000 — HISTORY OF THE AMERICAS
 MAF 2200 — MARRIAGE AND FAMILY
 *PCB 2030 — THE ECOLOGICAL CRISIS
 POS 2112 — STATE AND LOCAL GOVERNMENT

*May be used to satisfy area I. B. or III. A., but not both.

PSY 1012 — GENERAL PSYCHOLOGY
 *REL 2300 — WORLD RELIGIONS
 SOC 2000 — INTRODUCTORY SOCIOLOGY
 SOC 2020 — SOCIAL PROBLEMS
 SOP 1002 — HUMAN RELATIONS
 SOP 1502 — DYNAMICS OF BEHAVIOR
 SSI 1110 — ORIGINS OF AMERICAN SOCIETY I

II. HUMANITIES 6 semester hours

A. Six semester hours from any of the following:

HUM 2211 — WESTERN HUMANITIES I **or** HUM 2477 — MEDITERRANEAN HUMANITIES
 HUM 2231 — WESTERN HUMANITIES II **or** HUM 2478 — NORTHERN EUROPEAN HUMANITIES
 HUM 2250 — WESTERN HUMANITIES III
 HUM 2410 — ASIAN HUMANITIES
 HUM 2450 — AMERICAN HUMANITIES
 HUM 2460 — LATIN AMERICAN HUMANITIES

OR

B. Three semester hours from the foregoing category A, and three semester hours from any of the following:

ARH 1000 — ART APPRECIATION
 ARH 2050 — ART HISTORY I (Course designed primarily for Art majors)
 ARH 2051 — ART HISTORY II (Course designed primarily for Art majors)
 LIT 2211 — GREAT IDEAS IN WORLD LITERATURE I
 LIT 2221 — GREAT IDEAS IN WORLD LITERATURE II
 MUH 2211 — SURVEY OF MUSIC HISTORY (Course designed primarily for Music majors)
 MUL 1011 — MUSIC APPRECIATION
 PHI 2010 — INTRODUCTION TO PHILOSOPHY
 PHI 2600 — INTRODUCTION TO MORAL AND POLITICAL PHILOSOPHY
 *REL 2300 — WORLD RELIGIONS
 THE 1000 — INTRODUCTION TO THEATRE

III. MATHEMATICS — NATURAL SCIENCE 9 semester hours

A. Six semester hours from any of the following:

APB 1150 — LIFE IN ITS BIOLOGICAL ENVIRONMENT
 APB 2190C — HUMAN ANATOMY AND PHYSIOLOGY I
 APB 2191C — HUMAN ANATOMY AND PHYSIOLOGY II
 AST 1002 — INTRODUCTION TO ASTRONOMY
 BOT 1010 — BOTANY
 BSC 1011C — PRINCIPLES OF BIOLOGY
 CHM 1020 — CHEMISTRY FOR LIBERAL ARTS
 CHM 1034C — INTRODUCTORY CHEMISTRY
 CHM 1035C — INTRODUCTORY CHEMISTRY
 CHM 1041C — GENERAL CHEMISTRY & QUALITATIVE ANALYSIS I
 CHM 1042C — GENERAL CHEMISTRY & QUALITATIVE ANALYSIS II
 GLY 1000 — EARTH AND SPACE SCIENCE
 GLY 1010 — PHYSICAL GEOLOGY
 GLY 1100 — HISTORICAL GEOLOGY
 ISC 1000 — UNIFIED SCIENCE
 MCB 2013C — MICROBIOLOGY
 MET 1001 — METEOROLOGY
 **PCB 2030 — THE ECOLOGICAL CRISIS
 PHY 1020 — PHYSICS FOR LIBERAL ARTS
 PHY 2048C — PHYSICS I WITH CALCULUS
 PHY 2049C — PHYSICS II WITH CALCULUS
 PHY 2053C — GENERAL PHYSICS I
 PHY 2054C — GENERAL PHYSICS II
 PSC 1341 — PHYSICAL SCIENCE
 ZOO 1010C — GENERAL ZOOLOGY
 ZOO 2713C — COMPARATIVE ANATOMY

B. Three semester hours from any of the following:

CNM 1101 — COMPUTER ORIENTED MATHEMATICS
 ***MAC 1104 — COLLEGE ALGEBRA
 ***MAC 1114 — COLLEGE TRIGONOMETRY

*May be used to satisfy area I. B. or II. B., but not both.

**May be used to satisfy area I. B. or III. A., but not both.

***Will not apply toward Associate in Arts degree if credit is also earned in MAC 1132 — College Algebra and Trigonometry.

- MAC 1132 — COLLEGE ALGEBRA AND TRIGONOMETRY
- MAC 1311 — CALCULUS WITH ANALYTIC GEOMETRY I
- MAC 2312 — CALCULUS WITH ANALYTIC GEOMETRY II
- MAC 2313 — CALCULUS WITH ANALYTIC GEOMETRY III
- MAP 2302 — DIFFERENTIAL EQUATIONS
- MAT 1024 — ELEMENTARY ALGEBRA
- MAT 1033 — INTERMEDIATE ALGEBRA
- MGF 1113 — COLLEGE MATHEMATICS
- STA 1014 — ELEMENTARY STATISTICS

IV. COMMUNICATIONS . . . 9 semester hours

- A. BOTH of the following three semester hour courses are required of all students:
 - ENC 1103 — ENGLISH COMPOSITION I
 - ENC 1136 — ENGLISH COMPOSITION II
- B. ONE of the following three semester hour courses is required of all students:
 - *ENC 1005 — INTRODUCTION TO COMPOSITION
 - REA 1305 — DEVELOPMENTAL READING
 - LIT 2021 — INTRODUCTION TO LITERATURE
 - SPC 1010 — FUNDAMENTALS OF SPEECH

V. COURSES FROM ANY ONE OR MORE OF THE ABOVE FOUR AREAS (I, II, III, IV) 6 semester hours

**VI. ELECTIVES 26 semester hours
TOTAL: 62 SEMESTER HOURS**

The 26 semester hours of elective credit required in Area VI may be selected from among the courses listed in the catalog with the following designations, subject to conditions listed below:

P — UNIVERSITY PARALLEL — This course is intended to transfer to a university.

D — DUAL PURPOSE — Any course identified by this symbol is a university parallel course. The course is also part of certain occupational programs; hence, it serves both university parallel and occupational objectives.

CONDITIONS:

- (1) Not more than two of the 26 semester hours may consist of physical education activity courses (all one-semester hour courses).
- (2) Not more than four of the 26 semester hours may consist of music, speech, and drama activity courses. These courses are: MUO 1001, MUN 1130, MUN 1280, MUN 1380, MUN 1410, MUN 1710, MUNA 1310, MUNB 1310, SPC 2594, THE 2925.

Many courses in this catalog have prerequisite courses listed in the course descriptions. Students are advised to be guided by these requirements.

*ENC 1005 is a composition skills course and will not apply toward Associate in Arts degree if taken AFTER passing ENC 1103 or ENC 1136 with a grade of C or better.

PROGRAM AREAS

THE ASSOCIATE IN SCIENCE DEGREE

For General Education Or To A Job And Career In Two Years

One of the objectives of Florida Junior College at Jacksonville is to develop a comprehensive series of business, health, engineering and industrial related, home economics, distributive, public service, and other programs designed to fulfill the occupational needs of the community's citizens and employers.

The Occupational Education Programs are designed to prepare the student who, at the completion of a program of study listed in this section of the catalog, is planning to enter a chosen career at the semi-professional level, or who plans to transfer to a senior institution offering the baccalaureate degree in a related technology area, based on the articulation agreement with the senior institutions.

Occupational patterns in industry have changed significantly in the past 20 years. The rate of change is increasing. The techniques of measurement and control have combined to increase the need for technically competent persons with special abilities who can support and supplement the efforts of engineers, scientists, and managers.

Advisory committees help Florida Junior College at Jacksonville create programs and courses to prepare today's youth and adults for the world of work. The advisory committees are made up of civic-minded representatives of business, industry, government, health agencies, public service, and labor.

The broad area of Occupational Education at the College, in all of its philosophy, concepts, and functions, reflects the image of the worth of the individual, the needs of the individual and industry, and is conceived as one means of providing a quality program of education which not only recognizes the importance of essential skills and knowledge, but in addition, recognizes the need for desirable attitudes and habits.

Individuals who seek to pursue a career at the technician or at the para-professional level may enroll in a two-year college credit program leading to the Associate in Science degree. For those persons desiring to spend less than two years in preparation, College Credit Certificate programs are available in several areas.

The program director may prescribe deficiency courses which are necessary for successful completion of the Associate in Science degree. If the student

is a veteran, a copy of the director's recommendation must be on file and the course or courses certified as deficiency to the Veterans Administration.

The program director may approve another elective or professional course not listed as an approved elective in the Associate in Science degree curriculum which will apply toward Associate in Science degree graduation. If the student is a veteran, it is necessary that such course substitution be obtained from the State approving agency prior to the student's enrollment in the course being substituted. A record of the approval will be maintained in the veteran's file.

ASSOCIATE IN SCIENCE DEGREE

Graduation Requirements

In order to be awarded the Associate in Science degree, the student must have met the following requirements:

1. Earned a cumulative grade point average of 2.00 (C) on all college credit courses, including transfer credits, exclusive of physical education activity courses.
2. Earned a grade point average of 2.00 (C) on all courses taken at Florida Junior College at Jacksonville, exclusive of physical education activity courses.
3. Completed in residence at Florida Junior College at Jacksonville at least 15 semester hours of the required program.

4. Completed the general education requirements and required courses as set forth in the college catalog or as approved by the director of the program. A minimum of 60 semester hours is required for this degree, of which at least 15 semester hours must be in general education.

Before a student may graduate, the student must have fulfilled all financial obligations to the College.

ASSOCIATE IN SCIENCE DEGREE

General Education Requirements

1. A minimum of fifteen semester hours of General Education is required for all Associate in Science degree programs of study.
2. The following subject areas shall be included in each program in the manner specified hereafter:

I. SOCIAL SCIENCE . . . 3 Semester Hours

Any one of the following 3 semester hour courses to meet State requirement for study of the U.S. Constitution:

- AMH 2010 — UNITED STATES HISTORY I
- EUH 1001 — WESTERN CIVILIZATION
- POS 2041 — AMERICAN FEDERAL GOVERNMENT
- SSI 1120 — ORIGINS OF AMERICAN SOCIETY II

II. HUMANITIES 3 Semester Hours

Any course(s) listed under Area II (Humanities) for Associate in Arts degree.

III. MATHEMATICS — NATURAL SCIENCE 3 Semester Hours

Any course(s) listed under Area III (Mathematics—Natural Science) for Associate in Arts degree—OR as specified in individual Associate in Science degree programs from the course(s) listed under Area III (Mathematics—Natural Science) for Associate in Arts degree.

IV. COMMUNICATIONS . . 3 Semester Hours

One of the following three semester hour courses is required of all Associate in Science degree students.

- ENC 1103 — ENGLISH COMPOSITION I
- OR**
- ENC 1005 — INTRODUCTION TO COMPOSITION

- V. **THE REMAINING GENERAL EDUCATION REQUIREMENT** may be selected from courses listed in any one of the four categories under requirements for Associate in Arts degree **OR** as specified in individual Associate in Science degree programs.

A minimum of 60 semester hours is required for the Associate in Science degree. Some programs require more. Lists of additional courses required are set forth in individual Associate in Science degree programs.

COLLEGE CREDIT CERTIFICATE

To a Job in One Year

Florida Junior College at Jacksonville provides a number of educational programs of less than two years duration for which technical certificates are awarded upon satisfactory completion.

CERTIFICATE

Graduation Requirements

In order to be awarded a College Credit Technical Certificate, the student must have met the following requirements:

1. Earned a grade point average of 2.00 (C) on all courses taken at Florida Junior College at Jacksonville.
2. Completed the required courses as set forth in the College catalog or as approved by the director of the program.
3. Completed at least one-fourth of the total hours required for a certificate in residence at Florida Junior College at Jacksonville.

Before a student may graduate, the student must have fulfilled all financial obligations to the College.

The following are recommended programs of study leading to the Associate in Science degree and College Credit Technical Certificate in various areas of Occupational Education.

BUSINESS EDUCATION

ACCOUNTING

The Accounting Program is primarily designed for those students who intend to seek immediate employment in some area of accounting. The program is also intended for, and most beneficial to, those individuals who are presently using accounting and/or accounting information in their employment. The aim of the Accounting Program is to prepare students for positions in industry; federal, state, and local government; and public accounting. The professional certified public accountant candidate should follow the Associate in Arts degree Business Administration program of studies.

This program is based upon the development of a thorough knowledge of accounting principles and theory, and then seeks to develop the student's ability to apply this knowledge to problem situations. An intensive study of accounting and related business subjects is combined with general education courses to provide a well-balanced program.

DATA PROCESSING

There are three programs in Data Processing at Florida Junior College at Jacksonville. These programs are: (a) Associate in Science with an emphasis in Data Processing, (b) Certificate in Computer Operations, and (c) Certificate in Computer Programming.

Students who are interested in pursuing a Computer/Information Systems Science degree at a senior institution should elect the Associate in Arts degree and utilize the program requirements at the senior institution and Florida Junior College at Jacksonville to determine the best combination of courses for transfer.

The Associate in Science degree is a two-year course of study to prepare students for a variety of positions in data processing. The following are some of the job titles: (a) program coders, (b) control analysts, (c) junior programmers, and (d) programmer-analyst trainees.

The Certificate in Computer Operations is a one-year program which includes experience with the operation of data processing equipment in the College's Data Center and the Data Processing instructional laboratory. Field trips enable students to be exposed to a greater variety of equipment, operating systems, and computer applications.

A limited number of laboratory assistantships are available for students to gain valuable experience with the operation of the IBM System/370 Model 138 Computer System and the Prime 300 minicomputer system in the data processing instructional laboratory on the North Campus.

The Certificate in Computer Programming is an abbreviated program recommended for those students with previous college-level course work and/or business experience. It is a one-year course of study for those who wish to be gainfully employed as junior programmers or programmer-analyst trainees.

Students interested in a computer programming career are urged to take the Programmer's aptitude test available through the Student Development Office on the North Campus.

Full-time students wishing to complete any of the above programs must be enrolled in two Data Processing courses as part of their course load during the Fall and Winter Terms (I and II). However, these courses are not to be taken in the order as listed hereafter.

GENERAL BUSINESS

The two-year General Business Program is designed to prepare students for advancement in a business profession. The emphasis of the course selections is on business courses as only five General Education Courses are required. It is important to note that this program is not intended to be a substitute for the four-year Business Administration program. The Director of the Program may require and/or approve additional courses for program completion or may approve substitution of courses based on student needs.

SECRETARIAL SCIENCE

The two-year Secretarial Science Program is designed to fill the needs of the student who is preparing for a top level secretarial position. The program is a combination of general education, business education, and special education to develop the skills necessary for a secretarial position. Classroom experiences aid the student in successfully coping with the different phases of secretarial work: dictation and transcription; office practice, procedures, and management; and problems in typewriting at the vocational competency level.

The student may elect to learn either machine shorthand or Gregg shorthand in order to satisfy the requirements of the program. The student selecting machine shorthand must complete the course sequence SES 1221, SES 2222, and SES 2223. The student selecting Gregg shorthand must complete the course sequence SES 1211, SES 2212, and SES 2213. Individual courses in one course sequence are not interchangeable with courses in the other course sequence. Machine shorthand is offered only on the South Campus.

A student may obtain a Certificate in Clerical or Stenography by completing the courses identified hereafter. The Director of the Program may require and/or approve additional courses for program completion or may approve the substitution of courses based on student needs.

*Refer to AS degree General Education Requirements.

**Students will be placed at proper level in typewriting and shorthand. Students without skills required for completion of SES 1210 Beginning Shorthand, if Gregg Shorthand method is selected, and SES 1100 Beginning Typewriting I will be required to take these courses, which may increase the hours required for graduation. The Secretarial Science two-year degree program requires nine hours in typewriting and nine hours in shorthand.

***Students are required to take any two of these courses.

****Certificate programs require six hours in typing.

+ACC 2001 may be taken in place of ACC 1009 and 1029.

DISTRIBUTIVE EDUCATION

BANKING

This two-year program is structured to provide students with both the general and specialized skills and competencies needed to embark upon a profitable and rewarding banking career. Jacksonville is a hub of financial activity, and financial institutions such as banks are looking for qualified and motivated degree students to enter their executive training programs. Opportunities in banking are especially good because of the variety of departments such as business development, public relations, installment credit, international trade development, commercial services, loans and securities.

Those already employed in banks have the opportunity to register for in-house courses leading to American Institute of Banking certification and at the same time earning college credit toward degree requirements.

An option transfer program is available to students for admittance to the University of North Florida. Students electing this option are accepted as third year students at UNF. Students electing the transfer program to the University of North Florida must complete the transfer program requirements.

HOSPITALITY MANAGEMENT

This program is designed to provide career-oriented students with the basic principles and job entry working skills and the training for supervisory and management positions in the hotel, motel, apartment, lodging and food service industry. The program is designed to provide the student with a foundation for building a rewarding position and satisfying career in a dynamic, growing industry.

The hotel, motel, apartment, tourism, and food service industry is the largest and fastest growing business in Florida. AS degree students with an educational background of this business are in demand. Training includes communication and managerial skills, human relations, and leadership. Through the internship program of Hospitality Management, students gain college credit and valuable, profitable work experience. Job placement is available through the college Hospitality Management Advisory Committee.

**Choices in these courses are determined by the student's employment outlook. This decision will determine what type of institution the student will be placed in for the internship courses of HFT 2941 and 2942. Internship will consist of 15 hours per week of on-the-job training. Students are encouraged to seek part-time employment in the hospitality industry while attending college and during the summer.

The program director may require additional courses or make substitutions required to meet the needs of students.

INSURANCE

This program's objective is to provide students with the necessary course work that can lead to profitable and rewarding careers in the insurance industry — life, property and casualty, and health. Emphasis is placed on job preparation for affiliation with insurance agencies and home office operations. Jacksonville, being the "Insurance Capital of the South", offers great opportunity to qualified insurance AS graduates.

Courses are made available to those persons already employed for career advancement opportunities. These include Chartered Life Underwriters (CLU), Life Office Management (LOMA) and Insurance Institute of America (IIA). Courses leading to licensing requirements for property and casualty general agents, solicitors, and adjusters are also available.

An option transfer program is available to students for admittance to the University of North Florida. Students electing this option are accepted as third year students at UNF. Students electing the Transfer Program to the University of North Florida must complete the Transfer Program requirements.

REAL ESTATE

This program is designed to provide students with a meaningful background in real estate as particularly related to principles, practices, and license law. Pre-licensing requirements established by the Florida Real Estate Commission for licensed salespersons are incorporated into the program. Through a variety of course offerings, students are presented an opportunity to specialize in other areas of real estate including management.

An option transfer program is available to students for admittance to the University of North Florida. Students electing this option are accepted as third year students at UNF. Students electing the Transfer Program to the University of North Florida must complete the program requirements.

SALES—MARKETING—RETAILING

The Sales-Marketing-Retailing Program provides the student with a background that will assist in preparing for a career in the areas of sales, sales management, sales promotion, advertising, wholesaling, retailing, and market research. Career opportunities in these fields exist in private industry, government, and the professions.

The curriculum includes the study of activities necessary to place goods and services in the hands of household consumers and industrial users. The classroom experiences provide a broad understanding of the marketing process, as well as specialized knowledge in the various areas of marketing.

The Director of the Program may require and/or approve additional courses for program completion or may approve the substitution of courses based on student needs.

TRANSPORTATION

The purpose of the Transportation Program is to enable students to obtain a meaningful career, either in industrial traffic management or in the commercial carrier industry.

The Transportation Advisory Committee continually keeps the faculty aware of industrial needs, job opportunities, changes in transportation technology, and placement services.

Transportation curricula are continually updated, and new courses developed to meet community requirements. The courses provide students with ample specialized training and skills to enter the highly technical field of transportation and distribution.

An option transfer program is available to students for admittance to the University of North Florida. Students electing this option are accepted as third year students at UNF. Students electing the Transfer Program to the University of North Florida must complete the Transfer Program requirements.

ENGINEERING AND INDUSTRIAL RELATED EDUCATION

ARCHITECTURAL AND BUILDING CONSTRUCTION TECHNOLOGY

The objective of this program is to prepare the student for a career as a drafter or as an assistant to architects, engineers, or employers whose companies are associated through services or products with the architectural and building construction field.

A student will be considered as selected for this program when the student has an Associate in Science degree advising sheet signed by the program director. Students with an inadequate mathematics background will be required to enroll in MTB 0013, Introduction to Technical Math.

The objective of the certificate program is to prepare students for occupations related to the building construction industry. In particular the graduate of this program could be employed by a surveying company either as a field party member or as an office drafter transferring the field notes into survey plats. Other job opportunities would consist of working as a technician for an engineering testing company, making those in-place tests or laboratory tests required of the contractor. Still other possibilities are to assist the architect as the job inspector, or to assist the job superintendent on the job site, or to draw up preliminary sketches, for the contractor, architect or engineer. In summary, this certificate program provides a starting point for the graduate to enter building construction or related businesses.

Graduates of the one-year certificate program in Architectural and Building Construction Technology may elect to continue for the Associate in Science degree in Architectural and Building Construction Technology.

CIVIL ENGINEERING TECHNOLOGY

The objective of this program is to prepare the student for a career in fields related to Civil Engineering such as drafting, construction, surveying, road building, hydraulics, or instrumentation.

A student will be considered as selected for this program when the student has an Associate in Science degree advising sheet signed by the program director. Students with an inadequate mathematics background will be required to enroll in MTB 0013, Introduction to Technical Math.

The objective of the one-year certificate program in Civil Engineering Technology is to prepare the student for a career in the fields related to civil engineering such as drafting, construction, surveying and road building. A graduate of this program could be employed to assist the architect as the job inspector, or to draw up preliminary sketches for the contractor or engineer. In summary, this certificate program provides a starting point for the graduate to enter the building construction business or related businesses.

Graduates of the Civil Engineering Technology certificate program may elect to continue studies for the Associate in Science degree in Civil Engineering Technology.

ELECTRONIC ENGINEERING TECHNOLOGY

The objective of this program is to prepare the student for a career associated with the electronics industry as a technician or assistant to engineers and scientific personnel in electronic systems and processes.

A student will be considered as selected for this program when the student has an Associate in Science degree advising sheet signed by the program director. Students with an inadequate mathematics background will be required to enroll in MTB 0013, Introduction to Technical Math.

The student completing the one-year program in Electronics may expect to find employment at the entry or beginning technician level in those local industries which normally employ highly skilled people to service and maintain the complex electronics equipment and systems used in modern industry. These industries may use automated process and production equipment, complex business and data processing systems, computer data terminals and other communications systems. In addition, the beginning technician may be employed as an assistant to engineers and engineering technicians in the design and implementation of automated production equipment, the production of technical manuals, blueprints and drawings, and electronics photocopy.

Graduates of the one-year certificate program in Electronics may elect to continue studies for the Associate in Science degree in Electronic Engineering Technology.

MECHANICAL ENGINEERING TECHNOLOGY

The objective of this program is to prepare the student for a career as an engineering aide or technical assistant in numerous specialty areas associated with mechanical engineering or technology.

A student will be considered as selected for this program when the student has an Associate in Science degree advising sheet signed by the program director. Students with an inadequate mathematics background will be required to enroll in MTB 0013, Introduction to Technical Math.

The Mechanical Engineering one-year certificate program is designed to prepare students to work as "engineering aides" in various mechanical engineering areas. The aide may work under the supervision of a mechanical engineer or a trained technician. The aide may complete drawings from sketches, prepare working drawings, work in production control, safety department, or in the maintenance department of a manufacturing or industrial organization.

Students completing the certificate program may elect to continue studies for the Associate in Science degree in Mechanical Engineering Technology.

PRINTING/GRAPHIC ARTS

The two-year program in Printing/Graphic Arts is designed to provide the student with a working knowledge of each of six major areas of the printing industry, and then to develop in the student occupational skills in the one area or process in which the student demonstrates aptitude and interest.

Lecture courses and hands-on laboratory experience will be provided for training in Hand and Machine Composition and Form Make-up; Letterpress Press Operation and Form Lockup; Cold Typesetting and Pasteup; Camera Operation and Film Processing; Negative Stripping and Offset Platemaking; and Offset Press Operation and Related Bindery Functions.

X-RAY ENGINEERING TECHNOLOGY

The objective of this program is to prepare a student for a career in the medical or industrial field as a technologist specializing in the use, installation, calibration, and maintenance of radiologic equipment.

A student will be considered as selected for this program when the student has an Associate in Science degree advising sheet signed by the program director. Students with an inadequate mathematics background will be required to enroll in MTB 0013, Introduction to Technical Math.

HEALTH EDUCATION

DENTAL HYGIENE

The program in Dental Hygiene offers the student an opportunity to learn the technical and clinical skills of dental hygiene. The curriculum includes academic, technical, and clinical courses. Upon completion of the program, the student is prepared to take the dental hygiene licensure examinations. Upon successful completion of these examinations, the graduate will be licensed to practice in the field in dental hygiene.

One class is admitted annually to this two-year AS degree program. Due to facility requirements and accreditation standards, admission to the program is limited. Applicants must show evidence of good health and be a graduate of an accredited high school or its equivalent. College preparatory biology and chemistry or their equivalent are requirements for admission to the Dental Hygiene Program. A background of science and mathematics and good manual dexterity are strongly recommended. Continuation in the program's second year is dependent upon maintaining a 2.00 average in the first year. A grade of C or above must be maintained in all Dental Hygiene courses. Present program of studies is subject to change.

An application for admission to the program must include the following:

1. Application to Florida Junior College at Jacksonville.
2. Application to the Dental Hygiene Program.
3. High School transcript or copy of General Education Development (GED) test scores.
4. College transcript (if any college work has been attempted).
5. Official copy of Dental Hygiene Aptitude Test Scores.
6. Official copy of American College Test (ACT) or School and College Ability Test (SCAT) scores.

Students admitted to the program must present a report of a complete physical examination made not more than 30 days prior to the enrollment for the first dental hygiene course.

Information may be obtained by contacting the Director of Dental Programs, North Campus, Florida Junior College at Jacksonville.

Any students who have academic deficiencies as determined by the program director will be scheduled into additional appropriate courses for correction of those deficiencies. This assessment may occur prior to or during the program.

DENTAL ASSISTING

This is a one-year certificate program that will enable the student to demonstrate skills in dental assisting and the expanded duty functions of the dental auxiliary procedures, such as x-ray technique, dental material manipulation and identification, and the use and sterilization of dental instruments. Chairside assisting, application and use of medicaments, and assisting in the care of dental patients are also included. This program will qualify the graduate for the Certified Dental Assistant certificate. A background in science and good manual dexterity is recommended. Admission requisites and information for the DA program may be obtained by contacting the Director of Dental Programs, North Campus, Florida Junior College at Jacksonville.

The program director may require additional courses or make substitutions required to meet the needs of students.

EMERGENCY MEDICAL TECHNOLOGY

The program is a combination of general education, technical education and clinical skills. This process offers a student the opportunity to learn the technical skills of crisis emergency care necessary to support life.

Applicants to the program must have the ability to perform college level work.

Acceptable evidence of an applicant's ability is:

1. High school and/or college transcript with a grade point average of 2.50 or higher.
2. An ability to read at a 10.5 grade level on the Nelson-Denny Reading Comprehension Test.

All VA students must have their advising sheets signed by the Dean of Health Related Technology or the Director of Emergency Medical Technology.

A personal interview is required in order to advise the applicant and to explain the clinical portion of the program.

Any students who have academic deficiencies, determined by the program director, will be scheduled into additional appropriate courses for correction of these deficiencies. This assessment may occur either prior to or during the program.

During the clinical phase the student will observe a special calendar, which is not identical with the college's published calendar. The schedule is designed to meet minimum requirements promulgated by the Health Program Office—Emergency Medical Services Section, of the State of Florida.

Emergency Medical Technology courses must be taken in sequence with the designated prerequisite and co-requisite courses. A grade of 2.00 must be earned in each professional course, Human Anatomy & Physiology, Microbiology and Chemistry. A cumulative GPA of 2.00 must be achieved prior to scheduling EMT 2287 and must be maintained throughout the remainder of the program.

The student will be required to purchase one uniform (approximately \$15.00), name tag (\$1.25), and provide insurance protection. The funding for these additions will be assessed either during registration or will be provided by the student prior to the first clinical experience.

The program director may require additional courses or make substitutions required to meet the needs of students.

MEDICAL LABORATORY TECHNOLOGY

The goal of the program in Medical Laboratory Technology is to offer the student an opportunity to learn the technical skills of medical laboratory science. The curriculum includes academic, technical, and clinical courses.

Admission to the program for medical laboratory technicians is based upon evidence to substantiate the applicant's ability to do college level courses and evidence of good health according to standard medical practices. Acceptable evidence of an applicant's ability is: the ability to read at not less than 10.5 grade level as measured by a standard reading test, which has been approved by the program director; a score equal to or above the national norm on a college level aptitude test; or a high school and/or college transcript with a grade point average of 2.50 or better; or advanced standing on the basis of equivalency examinations. Program admission procedures may be obtained from the Director of Medical Laboratory Technology, North Campus. Prior to registration for each term, all students must have academic advisement by the program director.

Students who have academic deficiencies and/or requirements as determined by the program director, will be placed in additional appropriate courses for the correction of these deficiencies and/or requirements. This assessment may occur either prior to or during the program.

Students must earn a grade of C or better in the medical laboratory courses and complete all campus-based courses with a grade point average of 2.00 or better before entering the clinical phase of their education. During the student's clinical phase, a special calendar which is not identical to the College's published calendar, will be observed. This will conform to the clinical facilities schedule and the requirements of the National Association for Accrediting Clinical Laboratory Science, AMA Council on Medical Education.

In order to be employed in a medical laboratory in Florida, program graduates must pass the Florida State Licensure Examination for Medical Technicians. Program graduates are eligible for the Florida State Licensure Examination for Medical Laboratory Technologists.

The Certificate Program for Medical Laboratory Technology is available only through the Department of Medical Laboratory Technology, Florida Junior College at Jacksonville, in conjunction with St. Luke's Hospital. The student will develop entry level skills in Medical Laboratory Technology. Program graduates must sit for the Florida State Medical Technician Examination. The credits are transferable fully to the Associate in Science degree program in Medical Laboratory Technology.

Admission procedure: Students are admitted to this program only after acceptance into the two-year program for medical technicians at St. Luke's Hospital. Contact St. Luke's Hospital, the clinical laboratory.

Some professional courses carry professional malpractice insurance fees.

RESPIRATORY THERAPY

This program is designed to help the student to learn the skills of a respiratory therapist. Graduates of this program are eligible to take the national examination, given by the National Board for Respiratory Therapists, to become Registered Therapists.

Admission to this two-year AS degree program is limited. Applicants must be graduates of an accredited high school or its equivalent. A background in science and mathematics is strongly recommended. Admission procedures may be obtained from the Coordinator of the Respiratory Therapy Program.

The curriculum includes technical courses, clinical practicum, and academic courses. Graduation from the program is dependent upon receiving a grade of C or above in all required science, mathematics, and respiratory therapy courses.

COST OF PROGRAM:

Fees for the Respiratory Therapy Program are the same and subject to the same charges as those stated under student fees for regular students with the following additions:

1. Uniforms approximately \$10.00 (needed first day of clinical experience)
2. Stethoscope minimum of \$20.00 (needed first day of clinical experience)
3. Name tag approximately \$1.25

The Respiratory Therapy Program admits students one time per year in the Fall of every year; therefore, the cut-off date for accepting applications is June 15 of every year.

TECHNICAL NURSING

The program of study is a combination of General Education and Technical Nursing Education. Nursing courses are based on the concept of the Wellness-Illness Continuum. It is this concept that the faculty accepts as the framework for unifying all experiences within the program. Graduates of the program are prepared to function as beginning Technical Nurse Practitioners in giving direct care to patients. Upon completion of the program, graduates are awarded an Associate in Science Degree in Technical Nursing and are eligible to write the State Board Test Pool Examination to qualify for licensure to practice as a Registered Nurse.

Enrollment is limited in the Technical Nursing Program. Acceptance by the College does not imply admission to the nursing curriculum. Residents of the Florida Junior College at Jacksonville district (Duval and Nassau Counties) have first priority; out-of-district residents, second priority. Applicants are evaluated for admission on a point scale of 10 to five. Position on the scale is determined by the two criteria selected by the applicant from the five qualifying criteria as outlined in the Technical Nursing brochure. The brochure may be obtained from the Student Development office at North, South, Kent, or the Downtown Campuses. Approximately three weeks prior to the beginning of each term, letters are sent to each applicant indicating admission, accepted for alternate, or not accepted. Both single and married men and women may be admitted to the program. There is no age limit.

APPLICATION PREREQUISITES:

Applicants to the Technical Nursing Program must:

1. Be a graduate of an accredited high school or its equivalent.
2. Be accepted for admission to Florida Junior College at Jacksonville, be currently enrolled at FJC, or a former student of FJC.
3. Have completed a course in chemistry with a minimum grade of C, in high school or college.
4. Have six college credits in anatomy and physiology with a minimum grade of C earned. (Applicants who have college credits in addition to anatomy and physiology must have a cumulative 2.00 grade point average with a grade of C in all science courses.)

NOTE: It is recommended that students have a conference with the nursing counselor prior to applying to the Nursing Program.

COST OF PROGRAM:

Fees for the nursing program are the same and subject to the same charges as those stated under student fees for regular students with the following additions:

- | | | |
|---|-----------------|----------|
| 1. Uniforms | approximately | \$100.00 |
| (e.g., Shoes, Watch, Name Tag, and Stockings) | | |
| 2. Graduation pin | approximately | \$45.00 |
| 3. Insurance (Liability) | \$7.00 per term | |
| 4. Graduation cap | approximately | \$8.50 |
| 5. State Board Examination | | \$50.00 |

Any students who have academic deficiencies as determined by the program director will be scheduled into additional appropriate courses for correction of those deficiencies. This assessment may occur prior to or during the program.

FASHION MERCHANDISING

This is a program designed to prepare students for entering the fashion retailing industry. Employment may be secured in occupations such as salesperson, assistant department manager, display artist, fabric specialist, assistant buyer, department manager, and mid-management positions in sales supporting areas. The program will include instruction in career orientation, merchandising functions and techniques, garment construction, textile performance, and general business practices and procedures along with practical on-the-job work experiences.

FOOD SERVICE TECHNOLOGY

This competency-based program is designed to prepare students to seek employment in the food service industry at the mid-management level in restaurants, cafeterias, extended care facilities, schools, hospitals, and fast food service operations. Competencies needed may be acquired through a combination of theory, laboratory and community experiences. Students may acquire credits for demonstrated specified competencies acquired through previous education and/or experience.

Students must purchase individualized instructional modules from the book store.

FIRE SCIENCE AND PREVENTION

The Fire Science and Prevention Program is designed to provide training for persons who desire to enter the fire service; to seek employment in industrial fire protection, with insurance companies or with fire protection equipment companies; and to upgrade the professional status and intellectual competence of those currently employed in the fire service.

The program is under the guidance of an advisory committee composed of community leaders and administrators from local fire departments. This assures that the student will receive modern, up-to-date instruction that is relevant to current practices in the field.

Fire science and general education subjects are offered on a primary night and alternate night basis.

The program director may require additional courses or make substitutions required to meet the needs of students.

	credit hours	33 *	33	33
	Total credit hours	60	61-62	33

*For the Associate in Science degree only, EMT 1101—Basic Emergency Medical Technology may be used to satisfy six hours of the requirements for 33 hours of FFP prefixed professional courses. If this option is selected, FFP 1000 must be taken and FFP 2660 may not also be taken for credit.

**Under the transfer option, the technical mathematics series may be used to satisfy the general education mathematics requirements. Specifically, MTB 1321—Technical Mathematics I substitutes for MAC 1104; MTB 1322—Technical Mathematics II substitutes for MAC 1114; and MTB 2323—Technical Mathematics III substitutes for MAC 1311. If MTB 2323 is taken, the total number of hours in the AS transfer program is 61.

LEGAL ASSISTANT

This program, under the guidance of an advisory committee of attorneys and legal assistants, is designed to prepare a student for a career as a lawyer's assistant in legal practice, or in various businesses, industries, or governmental agencies. Professional courses are taught by attorneys whenever possible, thereby assuring students of meaningful and direct instruction in specific areas of the law.

Students wishing to enter the program without prior experience in the legal field must successfully complete the General Education Requirements or have permission of the director before enrolling in any professional course in the Legal Assistant Program.

POSTAL SERVICE MANAGEMENT

This is a program providing postal employees with educational opportunities to enhance their managerial potential. This Associate in Science degree and certificate program under the guidance of an advisory committee offers college level training within the specific field of Postal Management as one means of achieving upward mobility within the Postal Service.

ADDITIONAL INSTRUCTIONAL PROGRAMS

EXPERIENCE-BASED EDUCATION

Experience-based Education encompasses educational alternatives designed to integrate academic foundations with practical experiences while encouraging maximum self-discovery learning. The focus of learning is normally undertaken in an off-campus setting under the sponsorship of a mentor. In contrast, the traditional classroom educational experience emphasized the predetermined syllabus, tests, lectures, and content to be mastered within the structured and controlled learning environment provided by the faculty member.

Cooperative Education, one form of off-campus Experience-based Education, combines classroom learning with on-the-job experience in an integrated academic/career program. Students who participate in the program are placed in career related work experiences that relate directly to their career goals. In addition to gaining valuable practical experience while attending college, students receive academic credit for their supervised work experience.

Work and study schedules may vary to meet the needs of the students and the employers. Common work-study patterns include parallel work and study and alternating work and study. In the parallel plan, the student attends school and works at the same time. In the alternating program, the student works full-time one semester and attends school full-time the next semester.

Cooperative Education is open to all students in the College pursuing an AA degree who have completed one semester of satisfactory college study. Students in AS degree programs require the program director's prior approval in order to include cooperative work experience in their program of study.

Another Experience-Based Education program is the University Year for Action (UYA). UYA is a program jointly sponsored by Florida Junior College at Jacksonville and the federal government in which full-time college students work in human service agencies.

Participating students enroll for a full load of regularly offered and accredited courses. All course work is done on a contractual, independent study basis. A professor will supervise the student's independent study and any course related field work until the course is completed.

The UYA student is assigned to a human service agency in Jacksonville and receives a small living stipend for full-time voluntary service, as well as a year of federal civil service credit. The UYA volunteer gains valuable career oriented service-learning while participating in a program designed as one small step in overcoming the effects of poverty.

Other forms of Experience-based Education are prior learning assessments, internships, practicum, on-the-job training, and field research.

NURSING CONTINUING EDUCATION

A Continuing Education program is planned to meet the needs of nurses in updating knowledge and skills essential in professional practice. Continuing education courses are designed to enhance nursing practice and to help ensure the public safe and high quality nursing care.

Nursing practice is based on a continuously expanding body of knowledge and skills which prepares nurses to function effectively as members of the health care team.

Reassessment and ongoing evaluation will be done to determine the need for expanding this Continuing Education Program and offering additional relevant courses.

Nursing Continuing Education college credit courses which may be offered are:

NUR 2240C Critical Care Seminar	4 cr.
NUR 2242C Coronary Care Nursing	4 cr.
NUR 2243C Emergency Department Nursing	4 cr.

DEVELOPMENTAL EDUCATION

DOWNTOWN CAMPUS

The Developmental Education Department at the Downtown Campus offers various programs to college credit students. The goal of the department is to assist students who need additional help in the academic area to reach their educational goals. Students are advised into developmental education based on test scores and individual needs. Learning strategies in the program include:

1. Classes meet five days per week.
2. Smaller classes allow for personal attention.
3. Individualized instruction allows for more personalized assistance.
4. Transferable credit is given upon completion of the program.
5. Tutorial assistance in reading, math, and English is available.
6. Personal and vocational counseling as well as academic advisement is available.
7. Career planning, instruction on how to become employable, and instruction in study skills are also available.

Other services include:

1. Assistance in wise career decision-making and goalsetting through the Downtown

Campus career center, Occupational Assessment and Information System (OASIS), is available to all students.

2. In-depth student evaluation is available through the Evaluation Resource Center (ERC).

NORTH CAMPUS

The College recognizes that many students enroll lacking the proper academic skills and background to realize their full potential and be successful in their studies. To enable these students to develop their skills, a comprehensive college credit Developmental Education Program has been created at the North Campus. Students are advised to enroll in the program based upon their test scores and previous high school record. Transferable college credit is awarded upon successful completion of the program. Learning strategies in the program include:

1. Classes five days a week (two-thirds more classroom time at no additional cost).
2. Small classes for personal attention (maximum 20.)
3. Assistance from student tutors as well as professors.
4. Individualized instruction (students begin at their own level of proficiency and proceed at their own learning rate).
5. Programmed Instruction:
 - (a) Various published materials and additional materials developed by the professors
 - (b) Cassette and reel-to-reel tapes
 - (c) Video cassette tapes
 - (d) Filmstrips
 - (e) Slides
 - (f) Motion picture films
6. A communications laboratory available to the student for additional help.
7. Non-punitive grading.
8. Counseling, guidance, goal-seeking activity.
9. Career awareness skills.

SOUTH CAMPUS

The Developmental Education Program is for those students who need more time and some assistance in developing their full potential. It is a program to foster the development of learning skills in reading, writing, and mathematics so that students can be academically successful.

In this Developmental Education Program the

courses are designed so that students can earn full college credits while improving basic communication skills. Individual counseling also enables students to reevaluate their educational goals or set goals, where necessary.

The Developmental Education Program consists of the following core courses:

ENC 1005 Introduction to Composition

REA 1305 Developmental Reading

SPC 1010 Fundamentals of Speech

or:

MAT 1024 Elementary Algebra

SOP 1502 Dynamics of Behavior

REA 1605 Study Skills Development

Classes meet five days a week giving students two-thirds more classroom time at no additional cost. Classes are small (maximum, 20) so that greater personal attention to each individual student is possible.

Both group work and individualized instruction are utilized. All students' levels of proficiency are identified, so that they can proceed at their own learning rate. Self-pacing makes it possible for students to remain with the course for more than one term.

Varied materials and methods are used in instruction, such as programmed texts, cassettes, tapes, filmstrips and kits. Part of the instruction is in a classroom situation and part is of a learning lab nature.

FRED H. KENT CAMPUS

Developmental Education is provided through a Communications Laboratory and a Speech Clinic. These facilities are open, free to the entire student body and offer dynamic, individualized tutorial assistance to students who want to improve their learning skills. Students who wish to improve their reading and writing skills should contact the laboratory professor in Building 89 (north side). Students who desire help in formal and informal speech or who are in need of speech therapy should contact the professor/therapist in Building 95 (north side).

SUMMER OVERSEAS STUDIES

Florida Junior College at Jacksonville, in affiliation with the Consortium for International Education, sponsors an Overseas Program offering college credit in the areas of Humanities, Social Science, and Science. Orientation meetings and regular classes designed to make the tours valid educational experiences are held during the weeks prior to trip departures.

Class attendance and participation in the scheduled events of the tours are mandatory for students taking the courses for credit. Regular admission policies of the College must be followed to enroll in the program. Complete information about the courses and tours may be obtained by contacting the Dean of Academics at the Kent Campus. Students are expected to pay their own transportation and other charges.

ARMY ROTC — SOUTH CAMPUS

Army ROTC is open to all students who wish to acquire a basic military education which, in conjunction

with other college disciplines, develops individual character and those attributes essential to an officer.

Upon completion of the basic courses offered at the South Campus, a student is eligible for selection into the advanced program at any university with an ROTC program. A student enrolled in the advanced program will receive a daily monetary subsistence allowance amounting to \$100 for each academic month.

Students enrolled in the basic program incur no obligation towards the military.
